

IBS Mother's Day Activity On Review 11 August 2011

As early as 7.00 in the morning of 11 August 2011, the teachers were doing the final touch of the place where the Mother's Day activity be held. Prior to this day, the teachers have already prepared and decorated the place of the event, made booths for the parents to have a picture taking souvenir.

Everyone involved in the activity has put their great effort to make the event possible and successful.

Part 1 of the event was the ceremony dedicated for Her Majesty Queen Sirikit . Offering pampoon by the school director and some selected parents was the first activity that the audience had witnessed. Poem rendition and Thai dance presentation were amongst the highlights of the first part of the activity.

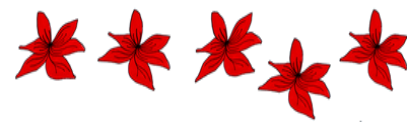

Part 2 of the event was the stage performance. It was started with a music filler which played by Mr. Rhennel and Khun Kru Kittaya.

After the music filler, the emcees started to do their part by greeting and welcoming the audience for the second and final part of the program. They started introducing the first presentation which was the song rendition by Pooh as lead singer and Aob and Yiam as the lead and bass guitarists. They have sung the song in Thai dedicated to all mothers. A song entitled One Friend was also sang by the matayom students.

Secondary students singing
'ONE FRIEND'

An energetic dance number followed after the presentation of the matayom or high school students.

The audience was surprised and amazed when they saw how good the students were at dancing during their presentation. The performers were very happy as well to see their parents in the audience watching them perform.

It was a heart breaking moment when the Broadway act was being presented by the music and drama club members. This was all about the sacrifices of a mother for her children... working so hard in other country, enduring all the pains for her to give her children a brighter future. Mothers from the audience started to roll down their tears. The presentation has a strong impact to them ... touching every mother's heart. We can see in them how happy they were at that moment.

The Grade 4 students together with Amy and Book of Grade 6 have rendered a Chinese song entitled 'Woah Aye Nee'. Parents were surprised about the language skill of the students for they have displayed their ability in singing a Chinese song.

Another song rendition entitled 'Rao Ruk Mae' was rendered by the Grade 5 and 6 students with all students who surrounded the audience have also sung along. It was a wonderful moment when the students went to their mothers to give the token that they have made and for them to appreciate all the love that their parents are giving to them. Many mothers have expressed their feelings towards their children, and some even cried just for them to show how they dearly love their children.

It was really a wonderful occasion to be treasured of FOREVER!
